

I AM A HEALER.

W. HAMPTON BAGGS, III, M.D., INTERNAL MEDICINE

Family and extended family have always been important to me. I remember as a child visiting my father at work in his pediatric practice and how much his patients loved him and considered him part of their families. Now, my son is starting his medical education at FSU. I have practiced Primary Care and Internal Medicine for 25 years with an interest in Infectious Diseases. I plan to travel to Central America soon on Medical Missions.
