

Trina Goraum
Pensacola Resident &
Robotic Surgery Patient

I AM A MOTHER, CHOCOLATE LOVER AND ROBOTIC SURGERY PATIENT.

When I needed a hysterectomy, I researched my options and chose Baptist Health Care for my surgery. Baptist offers minimally invasive robotic technology that benefits patients through lower risk of infection, less scarring and pain and quicker recovery time. My experience was great. My doctor answered all of my questions and the nurses were wonderful. I was home the next day and back to my regular activities in just a couple weeks.

To learn more about the benefits of Robotic Surgery at Baptist, visit eBaptistHealthCare.org/RoboticSurgery or call 877.469.7500 option 3.
