

How We've Made A Difference

Senior Expo

On the Road with Senior Expo was the theme of Baptist Health Care's 14th annual Family Expo that was held throughout the month of February 2009 at various communities served by Baptist Health Care. These locations included Baptist Hospital, Baptist Medical Park Nine Mile Road, Atmore Community Hospital, Gulf Breeze Hospital Campus - Andrews Institute and the Jay Community Center. Senior Expo allows Baptist Health Care to continue to improve the quality of life in our area and to promote healthcare services offered at our locations. Hundreds of seniors participated in free health screenings that included heart and stroke risk assessments, blood glucose screenings, osteoporosis heel scans, total cholesterol, blood pressure checks, hearing and memory screenings.

Other highlights of the day included free memberships to the GoldenCare senior wellness program, door prizes, refreshments, a brown bag drug screening, grip strength checks and foot screenings. More than 30 Baptist Health Care employees worked at this event to offer our rapidly growing senior population the opportunity to learn more about health and wellness.
