

**Mary Beth Marmon**  
Heart Attack Survivor

### The Region's Choice for Heart Care

Baptist has always been known for the highest quality, patient centered care and outreach in our communities. Now Baptist's nationally recognized heart and vascular team is even stronger because we're working in partnership with the physicians of Cardiology Consultants, the region's largest, most experienced team in cardiovascular care. Together we offer the latest in cardiovascular technology, award-winning quality and unparalleled care.

## I WANT TO BE HERE FOR MY KIDS.

I'm a home health nurse and have a family – I care for other people. In pushing myself to do the best that I can, I forgot to care for me. I wasn't taking care of myself and had a heart attack. Everyone at Baptist was very caring and answered all of my questions. Thanks to Baptist, I'm going to see my daughter get married and see my grandchildren. For more on Mary Beth's story, visit [www.eBaptistHealthCare.org/Heart](http://www.eBaptistHealthCare.org/Heart).

Baptist Health Care and Cardiology Consultants are nationally recognized for quality care and innovation. Call **850.484.6500** or visit us online to make a doctor appointment. Ask for us by name.
