

I'M NOT LIKE ANYONE ELSE, AND NEITHER IS MY HEALTH CARE.

For years, I received call backs following my mammogram screenings. I learned that I had dense breast tissue which makes it hard to clearly see any problems. I was thrilled to learn that Baptist Hospital now offers 3-D digital mammography, the latest generation in breast imaging that takes sharper, more detailed, accurate images. For me, this means no call backs and fewer false alarms.

Accredited by the American College of Radiology

Baptist offers same day digital mammography screenings at four convenient locations: Baptist Hospital, Gulf Breeze Hospital, Baptist Medical Park – Nine Mile, Baptist Medical Park – Navarre. To schedule your mammogram, call 850.434.4080.
